If you are a high school junior or senior and at least 16 years old, you can earn college credit now through CCC's Early College course offerings

Articulated

High School Articulation is an alignment of selected high school courses to CCC curriculum. Articulated courses give juniors and seniors the opportunity to earn high school and college credit at the same time. These courses are known as dual credit courses.

There is no cost for articulated courses. In order to receive the college credit, the student must earn an A or B in the articulated course.

College credit earned will be recorded on the student's CCC transcript at the end of the school year.

Articulated agreements will remain in place through Spring Semester 2017 unless otherwise noted in parentheses by the high school course name listed below.
