Gender Unknown or Another Gender than Provided Categories

- The 'gender unknown' category is to report students for whom the institution does not know a gender.
- Institutions should not ask students that do not select a binary gender to allocate themselves to a binary gender category; it is up to the institution to allocate unknown students and students that indicate another gender into the binary categories throughout the forms where required. One method commonly used by institutions is to allocate these students to the binary categories required in other parts of the form using the proportion of men to women reported.

Is your institution able to report **another gender** for the 2023-24 data collection?

If you indicate 'No, my institution does not collect data on another gender,' leave the cells in the rows for '**Another gender**' blank (i.e., do not report 0). If you indicate 'No, some cells will have a value of less than 5 students,' your institution collects data on another gender, but some cells have a value of less than 5 students, do not report the data and leave the cells in the rows for 'Another gender' blank. If you indicate 'Yes,' but no students identified as another gender, please enter '0'.

Undergraduate students:

- ☐ Yes
☐ No, some cells will have a value of less than 5 students (do not report)
☒ No, my institution does not collect data on another gender

Graduate students:

- ☐ Yes
☐ No, some cells will have a value of less than 5 students (do not report)

Transfers/exclusions

- In the columns below, report the status of those students in the 2019 cohort of full-time, first-time degree/certificate-seeking undergraduate students listed in Column 10 who did not complete a program as of August 31, 2022.
- Report transfers-out who did not complete a program in Column 30. If the mission of your institution includes providing substantial preparation for students to enroll in another eligible institution WITHOUT having completed a program, you must report transfer-out data in Column 30. A school is required to report only on those students that the school knows have transferred to another eligible institution. A school must document that the student actually transferred. If it is not part of your mission, you may report transfer-out data if you wish.
- Report eligible exclusions from the cohort in Column 45. The ONLY allowable categories for this column are:
students who died or became permanently disabled
students who left school to serve in the armed forces (or have been called up to active duty)
students who left school to serve with a foreign aid service of the Federal Government
students who left school to serve on an official church mission
- Column 52 [No longer enrolled] will be calculated for you. This includes students who have dropped out as well as those who completed in greater than 150% of normal time.
- If you do not have any values to report in either Column 30, 45, or 51, you must enter at least one zero in a field on this screen to continue.
