

Bike Share Instructions:

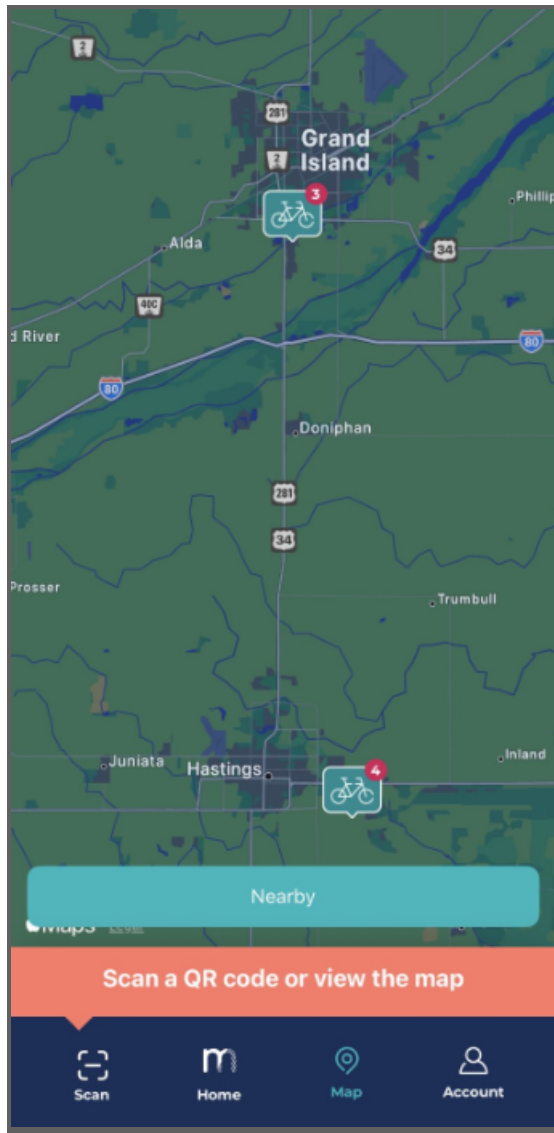

- Come check out a bike at one of our three different campus options! Hastings, Grand Island, and Columbus, all have bikes available!

- Using the *Movatic* app, select which bikes are nearest to you! The bike you desire should have a corresponding number on the side of the bike.

[Movatic | Shared Mobility Software](#)

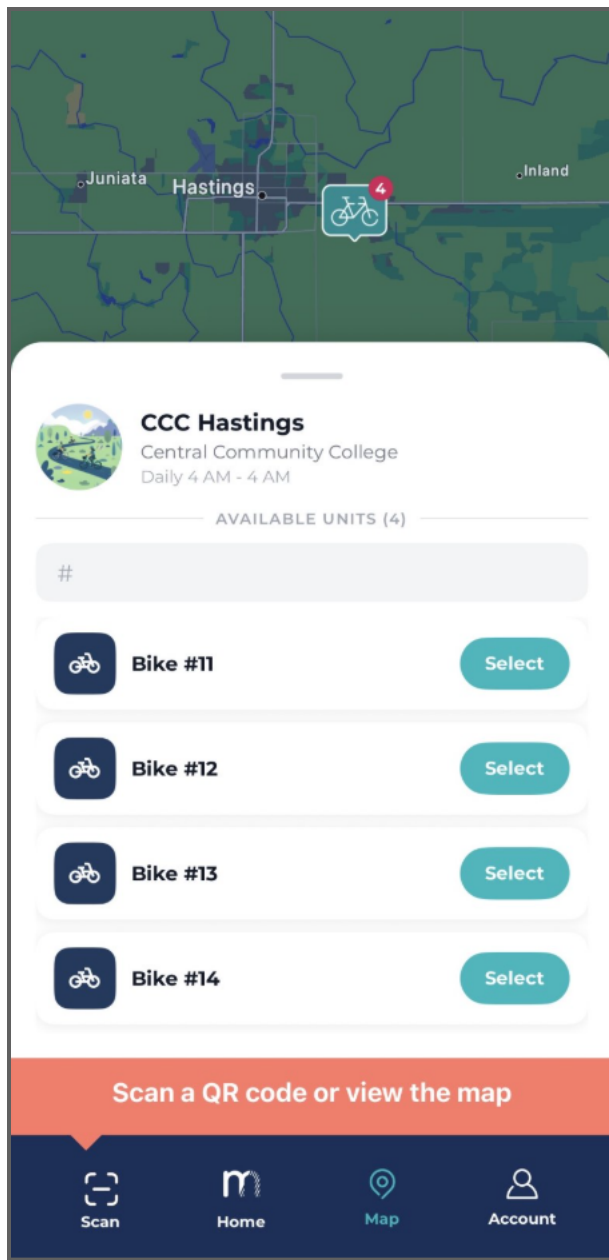

- The image below is the opening page on the *Movatic* app of the “Map” tab and should be what you are also able to see! Bikes available, and nearby, will don a bike icon with the number of available bikes. Select the location that you would like to rent from.

- The bikes themselves also have instructions to help with your rental process, but if you have questions, come to our office on any campus and we can help!

- After you have selected your location, and the bike number you want (the number of the bike should be located on the side of the bike to confirm you are selecting the correct one) the rack will begin to **beep**, **unlock**, and **you're all set** to use and take the bike for as long and/or as far as you like! *(We ask that bikes are treated with mindfulness and care so that they stay in prime condition for others to use as well).*
- If you would like to keep the bike **more than 24 hours**, please reach out to Benjamin Newton at benjaminnewton@cccneb.edu

- Once you are done riding, return the bike to rack and, using the app, follow the steps on the screen to confirm that you have relocked it back into place (you should not be able to remove the bike after returning if it is securely locked back in place) and you are all set for another ride in the future!

Thank you for using CCC rental bikes! Feel free to reach out with any questions for comments to the Sustainability Office available to your location.
